PROFESSIONAL SUMMARY

Full-stack web developer. Web development practice since 2012; professional experience since 2020 (university teaching, then production web development since 2023); research in computer science from 2018 to 2022. Skilled in PHP, JavaScript, MySQL, REST APIs, WordPress and e-learning platforms. Founder of MW STUDIO, an independent studio in pre-launch.

SKILLS

Web development: PHP (object-oriented), JavaScript (ES6+), HTML5, CSS3, Sass, Bootstrap, MUI, AJAX, React.js (7 months of practice)

Back end and data: Node.js, Express.js, REST APIs, MySQL, MongoDB, Firebase (Authentication, Firestore, Hosting)

CMS and e-learning: WordPress (themes, custom plugins, custom post types), Elementor, ACF, WooCommerce, BuddyBoss, Tutor LMS

Tools and operations: Git, GitHub, Jira, Linux (basic), VPS and cPanel administration, on-page SEO, Schema.org, performance tuning, web security

Research: Graph algorithms, machine learning, artificial intelligence, privacy protection in social networks

PROFESSIONAL EXPERIENCE

Founder | MW STUDIO (independent studio, pre-launch) | Present

- Founding and building an independent studio (pre-launch).

WordPress Developer | Académie des Sciences, Métiers et des Arts (ASMA), Hammam Sousse, Tunisia (hybrid) | January 2024 - Present

- Build, customize and maintain 8 production websites: Medicina, HLS, Menana, Genoscale, IMSA, IMSA-Labs, VersaTech and ASMA.
- Develop and optimize 4 e-learning platforms: ECN Claroline Healthcare, Universalis, PrepaPlus and Netschool1.
- Developed custom plugins for Medicina, a platform for healthcare professionals (community network, e-learning, CME, certification): a CME credit and certification system with gamification (levels, badges, certificates), a simple CV builder (Medicina, Europass, ATS and Canadian formats), a simple member map, and small utility plugins for accounting and user verification.
- Manage hosting environments, databases and performance tuning; apply security, scalability and SEO best practices (metadata, semantic headings, Schema.org, indexing).

Technologies: WordPress, Elementor, PHP, MySQL, BuddyBoss, Tutor LMS, SEO, VPS

Junior Full-Stack JavaScript Developer | Glocal IT Solutions GmbH | March 2023 - September 2023

- Built React.js interfaces (Bootstrap, MUI) and integrated Firebase (Authentication, Firestore, Hosting) for a real-estate web application serving a German client (X-CITE Immo).
- Worked in an agile team with Git and Jira.

Technologies: JavaScript, React.js, Firebase, HTML, CSS, Bootstrap, MUI, Git, Jira

Adjunct Lecturer in Computer Science | Higher Institute of Computer Science of Mahdia (ISIMA), University of Monastir (October 2020 - July 2021); Faculty of Sciences and Techniques of Sidi Bouzid (FSTSBZ), University of Kairouan (September 2021 - July 2022) | October 2020 - July 2022

- Taught undergraduate tutorials and labs in programming (C), object-oriented programming (Java), web technologies, distributed systems, algorithms and data structures.

Technologies: C, Java, algorithms, distributed systems, HTML, CSS, JavaScript, MySQL

IT Trainer | Delta Institut de Formation | October 2020 - June 2021

- Delivered training in office tools, image editing, video editing and Linux basics.

Web Developer Intern | Comguru agency, Sousse, Tunisia | 2016

- Worked on a healthcare e-commerce web application with HTML, CSS, JavaScript, Bootstrap, Node.js, Express.js and MongoDB.

EDUCATION

Doctoral Research in Computer Science | ISITCom, Hammam Sousse, Tunisia | 2019 - 2022
Focus: group-based influence maximization with privacy protection in social networks (artificial intelligence, machine learning, graph algorithms).

Research Master's Degree in Distributed Computing | ISITCom, Hammam Sousse, Tunisia | 2018 - 2019
Thesis: a parallel algorithm based on influence trees to detect influential users in social networks.

Bachelor's Degree in Computer Science | ISSAT Sousse, Tunisia | 2013 - 2016
Final-year project: multiplatform web application for medical offices and pharmacies.
